II: QR code Verification

QR codes can be verified using one of the following methods:

- Scanning the QR code using QR code reading software.
- Entering the QR code's reference number and code number in the QR code verification page at www.chambertrust.ir/co

using a smartphone

OR

using a webcam

Method a

Certificate of Origin Verification

To verify the content of the Certificate of Origin (CO) issued by ICCIMA, please input the Reference number and Serial number of CO and select the button "Submit".

Verify By*

Reference Number*

Qr-code*

Once the QR code is scanned, general information on the certificate of origin is displayed, followed by a link to a page containing information on the certificate of origin.

Reference Number: [REDACTED]
Qr Number: [REDACTED]
Issue Date: 1401/08/14
Certifying Organization: Tehran Chamber of
Commerce, Industries, Mines & Agriculture
Holder's ID Number: [REDACTED]
Certificate of Origin Verification Link:

III: Advantages of Using QR codes instead of Hologram Labels

- Saving the costs associated with printing and sending holograms to various branches of ICCIMA;
- Printing the security code (QR code) on all the pages of the certificate of origin, without any restrictions for certifications with more than a single page.
- Displaying the verification page for the issued certificate of origin after scanning the QR code on mobile devices without opening any webpage.

- D. Precluding any possibility of hologram counterfeiting as reported by some border branches.
- E. Enhanced access management for each chamber.
